Multitech Industrial

Efficiency on the Production Line - For more than 14 years, Multitech has been offering equipment and specific solutions to manufacturing industries from the most important global brands in the fields of marking, labeling and industrial automation. Multitech's solutions support and optimize the production processes of hundreds of companies in Romania.

Global Source

Global Source is a high level technology equipment and solution provider for all industrial and laboratory requirements. We offer personalized solutions for inspection, measurement, testing requirements, and design and development for technical furniture. Being a supplier of state-of-the-art equipment, the company has a diversified, unique brand portfolio, from top producers such as Hirox, Ash, Inspecto, Motic, Jenoptik, Viking and others. Along with the digital microscopes we are proud to serve successfully in various configurations laboratories and production lines, we also present automatic robotic inspection system, based on Artificial Intelligence and Deep Learning. Our main goal is to offer the most suitable equipment for every application, along with the right training, to have a quick and safe start. We are committed to support our customers, so we offer free demos, trials, efficient remote or on site services. We develop industrial and laboratory products with creative design solutions and expert use and care advice.

Telog

Telog is the exclusive importer in Romania and Hungary of MODULA automated vertical storage systems, that has been operating on the market since 2006, having vast experience in the sale, installation and maintenance of these systems. From 2025 we are exclusive importer for PUDU ROBOTICS in Romania and Hungary.

DS Smith

DS Smith is one of the leading global providers of corrugated cardboard packaging, as well as being active in recycling and paper manufacturing. The company plays a significant role in the value chain across various sectors, including e-commerce, FMCG, and industrial. With its mission to "Redefine Packaging for a Changing World" and its sustainability strategy "Now and Next," DS Smith is committed to inspiring the transition to a circular economy. It offers multiple circular solutions to its customers and society at large by replacing problematic plastic materials, eliminating carbon from supply chains, and providing innovative recycling solutions. Headquartered in London and listed on the FTSE 100, DS Smith operates in 34 countries with approximately 34,000 employees. In Romania, DS Smith owns a coordination centre for recycling operations in Bucharest, two recycling depots in Stefanesti and Cluj-Napoca, a paper mill in Zărnești, two packaging production units in Ghimbav and Timisoara and three service centers, in Pitesti, Timișoara and Otopeni, Ilfov county, where a total of 650 employees work.

Form A Tronic

At Form A Tronic, we integrate expertise in advanced 3D printing technologies with a commitment to sustainable industrial production. From rapid prototyping to bespoke manufacturing, we provide comprehensive solutions, industrial additive manufacturing equipment, and expedited production services utilizing materials such as metals, polymers, and resins.

DEKRA Certification STL

Since its founding in 1925, DEKRA's promise has been: we provide safety for human interaction with technology and the environment. Since then, DEutscher KRAftfahrzeug-Überwachungs-Verein e.V. has become one of the world's leading expert organizations. The broad portfolio of services provided by qualified, independent and impartial experts ranges from testing and certification of products and management systems, vehicle inspection, to industrial and construction inspections, safety consulting as well as training courses and temporary work. In traffic, at work and at home – DEKRA experts provide increased safety in all key areas of life. The company has a clear and ambitious vision for the future. The vision for the company's 100th anniversary in 2025 is to become a global partner for a safe and sustainable world.

Transilvania Business

Monthly magazine Transilvania Business is the sole premium publication mainly focused on economic activities in Transylvania and Banat – Romania, but also integrates articles about main national investments and projects and also international trends & events.

Trane Romania

Trane is a manufacturer of heating, ventilation, and air conditioning (HVAC) systems, along with building management systems and controls. The company is a subsidiary of Trane Technologies, a company focused on manufacturing HVAC and refrigeration systems.

Japan Tool Group

JAPAN TOOL GROUP is an importer and distributor of collaborative robots for manufacturing, retail and education, cutting tools, hand tools, measuring tools, in Romania with 20 years of experience with firms like: DUCO ROBOTS, UNION TOOL JAPAN, GEDORE, MARTOR, TANOI JAPAN, ISAWA JAPAN, INSIZE CHINA... Collaborative robots offer competitive advantages to businesses with industries as metal processing, automotive, food&beverages, chemical, consumer electronics, health care, new retail, semiconductor, education. Applications of collaborative robots :welding, palletizing, loading and unloading, assembly, bin picking, gluing, insertion, polishing, quality inspection, screwdriving, transporting, entertainment

Vibroblast

Vibroblast is a Romanian company active in metal surface treatment field. We are representing in Romania important producers for machines and consumables in blasting (turbine and air compressed systems), shoot peening, vibrofinishing, washing, painting, filtration for particles, smog, or gases.

Stand 13

IRUM

Founded in 1953, IRUM is a company specialized in the construction of machinery and equipment. Headquartered in Reghin, Mureș County, IRUM stands out through its activity and commitment to manufacturing Romanian products. The factory covers an area of 175,000 m², comprising its own Research and Development Center, IFOR, production units, administrative buildings and other infrastructure and superstructure elements, intended to streamline the activity carried out within it. On the other hand, IRUM has a well-organized service and spare parts network, which is continuously expanding and developing to improve the quality of the services offered. The range of products made at IRUM currently includes articulated forestry tractors, agricultural tractors, funiculars, winches and spare parts, but the factory also has a CNC machining center, foundry, heat treatment line, tooling, welding workshop, painting shop and service. Moreover, IRUM is the manufacturer of the only Romanian Agricultural Tractor, giving life to this industry, after 10 years of inactivity in Romania.

Stand 14

ASTRA TL

Our object of activity is the production of spare parts for chemical and petrochemical industry, petroleum industry, natural gas transportation, distribution of hot and cold water etc. In our portfolio you will find products like neck flanges, plate flanges, blind flanges, spectacle blind flanges and fittings (up to 40 inches), threaded nipples, weldolets, sockolets and threadolets. With an experience of over 33 years and a range of products manufactured according to European standards (ISO 9001, PED 2014/68/EU), we managed to meet all the needs regarding materials, pressures, physical and mechanical characteristics, so that our customers are always satisfied.

Stand 15

Pöppelmann

Pöppelmann KAPSTO® – Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. – All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing – you will find the right protective element here. The standard range includes over 3,000 versions and can usually be supplied from stock. This also applies to our resource-saving protective elements made of 100 percent recycled material in the plastic used. We also offer another 2,000 versions in our special range, which we can produce quickly and cost-effectively for your specific order using available tools. On request, we can also develop and produce individual custom products for you.

Stand 16

Zynk Software

CODENO is the ultimate solution for manufacturing companies seeking to optimize operations, enhance productivity, and achieve industry excellence. With streamlined production processes, data-driven decision-making, and supply chain optimization, CODENO enables businesses to stay ahead in today's competitive landscape. - Advanced Production Planning: Plan, schedule, and optimize production processes. - Manufacturing Execution System (MES): Monitor production in real-time, manage work orders, track inventory, and enforce quality standards. - Production Resource Management: Efficiently allocate manpower, materials, and machinery. - Tool Life Management: Optimize tool lifespan, track usage, and schedule maintenance. - Asset Management: Track asset lifecycles, schedule maintenance, and optimize utilization. - Energy Management: Reduce energy consumption and identify optimization opportunities.

Stand 17

Binar Electronics

Binar Electronics is a company focused on circuit design and customized solutions. With 5 years of experience in the field, we are a passionate startup specializing in circuit design, providing electronic solutions tailored to the specific needs of our clients. Our services cover the entire process, from the initial concept to the finished product. We ensure efficient circuit assembly, both in prototype variants (10-20 units) and large volumes. We are committed to finding the best solutions, including identifying reliable raw material suppliers. Our mission is to bring innovation to the business environment and consumer experience through electronics, offering our clients exactly what they are looking for and cannot find in the market. With a personalized approach and a commitment to excellence, we are the ideal partner for your electronic projects. As a young company, we understand how crucial it is to keep costs under control. Therefore, we seek to optimize costs without compromising product quality. All designed circuits are carefully studied and optimized to provide affordable and easily attainable solutions.

Stand 18

Compa

We are a company with more than 135 years of experience in metal manufacturing industry, a company that cares for values as understanding and respect for the client, investment in people and respect for the environment. COMPA is set to maintain the professional etiquette at the highest standards by bringing higher added value for customers based on diversity of skills, increasing business with OEM's and also the non automotive business, an intense activity which is part of our core strategy for the next years. Our goods are delivered on 4 continents, which include countries like: France, Germany, Italy, Czech Republic, Slovakia, Belgium, Spain, Hungary, China, India, Korea, Vietnam, United Kingdom, USA, Mexico, etc. Main type of products that we manufacture: Subassemblies and components for the injection system; Turbocharger components; Pinions for the steering box; Components for the steering gear, steering box and steering column; Powertrain components; Components for wiper screen system; Stamped parts; Cold-coiled springs; Hot forged parts; Mechanical welded structures & cabins; Components for air conditioning systems and water management.

Stand 19
Stand 20

CRG Industrial Services

CRG Industrial Services is a company formed by technicians who have over 15 years of experience in the field and which was born with the aim of providing services and technical solutions to all those active in the manufacturing industry. From CAD design, to CAM programming for mold making. However, with flexibility, agility and a well-defined structure, we respond to challenges conscientiously and offer mechanical parts for other sectors, such as: aeronautical, naval, of control devices, but also general mechanics.

Stand 21

Metal Fortex

We are a Romanian company specialized in welded structures and machining for parts up to 12 tons. Over 90% of our production is for the German market for customers such as Schuler Pressen, EMAG Machine Tools, GROB, Kronen AG and others. We produce 120 tons/month of welded structures and over 80% of our production is for sectors such as: automotive, recycling, food, energy. Metal Fortex has TUV EN ISO 3834-2 certification; EN1090 for welding and also ISO9001.

InTradeFairs

Intradefairs is an online B2B platform for industrial companies, the organizer in Romania of the Industry Expo, Automotive Expo, Manufacturing Expo, Emsetech Expo, Logistics Expo and Technology Expo Trade Fairs.

Stand 22

Diaplast Production

Diaplast Production has over 18 years of experience in plastic injection moulding, extrusion and assembly. We are a leading supplier of plastic components for different industries, able to fulfil higher standards of fabrication/manufacturing, quality, packaging and logistics, specific on different markets. Our know-how specialized team and technical capabilities, allow us to assure for our customers complete services at higher standards.

Stand 33
Stand 34

AI Automation Initiative

With a great passion for robotics and automation, we founded our company in 2018. At AI Automation, we specialize in advanced robotics integration, helping businesses enhance efficiency, safety, and productivity through cutting-edge automation solutions. With expertise across leading robotics brands, we provide comprehensive solutions tailored to your specific needs.

Stand 23
Stand 24

Levtech

We are developing and manufacturing electronic devices for the industrial automation field. Our goal is to create high quality and reliable products with a competitive cost.

Stand 35

Psicontrol

Psicontrol focuses on the design, development, production, and support of custom-made controllers with a technological focus on contemporary human interfacing, wireless communication technologies, and embedded systems. With offices in Ieper (Belgium) and Râșnov (Romania), Psicontrol mainly focuses on industrial customers, for whom reliability is crucial. Today, it supplies various sectors, such as textile machinery, compressors, HVAC, and vending machines. Psicontrol has its headquarters in Ieper (Belgium) and it employs more than 500 people worldwide. Psicontrol is part of Picanol Group, a business unit of Tessenderlo Group (Euronext: TESB). Tessenderlo Group is a global industrial group that focuses on agriculture, valorizing bio-residuals, machinery, mechanical engineering, electronics, energy, and industrial solutions for water management.

Stand 25

4M MP

+ 25 years experience in plastic injection or blow moulding for automotive and other industries. Our dedication to the quality of the products and services we deliver represents the foundation of our success.

Stand 36

Axon' Cable

Axon' designs and manufactures innovative cabling, interconnect solutions, cable assemblies, connectors and mini systems for high tech applications.

Stand 26
Stand 27
Stand 28

Hamann

Hamann imports and distributes products specific to manufacturing processes, maintenance activities in the industrial sector and those who perform maintenance and repair work for cars, trucks or agricultural machinery.

Stand 37

NCAB Group

Our goal is to provide you PCBs with zero defects, on time. Each local company operates as an autonomous financial unit, with full responsibility for its own results. This makes for a high degree of customer commitment and service. You have a direct line to decision makers and technical support who understand your requirements, products and production processes.

Stand 38

TP Electrics

TP Electrics field of activity is manufacturing and assembly of electrical cable harnesses, electronic components and modules. The company has multiple competences for cable harness assembly, from battery connections, to tapped or corrugated tube protected strings. Their PCB assembly aptitudes enable them to approach also complex projects and offer integrated solutions, such as board assembled PCB, with cable wires attached, which enables the customers to only fit and connect on devices.

Stand 39

Ray's Components

Ray's Components is a key player in the electronic components market, serving Hungary, Romania, and Slovenia. As a trusted regional sales representative, we bridge the gap between renowned manufacturers and customers, offering top-tier customer support and expertise. Our carefully curated portfolio includes resistors and shunts from KOA, capacitors from Jianghai, connectors from Adam-Tech, and DC contactors from Altran Magnetics. These collaborations highlight our commitment to excellence, ensuring superior quality and an unwavering dedication to customer satisfaction. Partnering with KOA guarantees a reliable source for resistors and shunts, while Jianghai's capacitors bring cutting-edge technology. Adam-Tech's connectors offer seamless connectivity, and Altran Magnetics' DC contactors ensure reliable performance. This strategic selection underscores our commitment to delivering the highest standards in electronic components. At Ray's Components, we're more than a supplier; we're your trusted partner in the electronic solutions realm.

Stand 40

HONYA Europe

HONYA Europe is a leading manufacturer of printed circuit boards (PCBs) with extensive experience in the European market since 2009. We specialize in a wide range of PCBs, from single-sided to complex multilayered and flexible boards, supporting various electronic technologies. Located in Poland, our strategic position within the EU offers clients simplified customs, tax, and logistical procedures for efficient order fulfillment.

Stand 41
Stand 42

Grimas Control

GRIMAS Control is a privately held multinational company, which was founded in Romania in 2008 and it is part of the group GRIMAS companies, Austria and Hungary. The company provides a wide range of control and measurement equipment for destructive and nondestructive control with applications in various industrial fields such as: automotive, aerospace, petrochemical, civil and military shipyards etc. We are constantly looking beyond customer's expectations in order to deliver market leading products wherever they are needed. We providing specialized business solutions that improve quality, safety and productivity and reduce risk. Our sales representatives and customer care team with over 15 years of experience strives to bring you the best customer service and can help you solve tough inspection problems. Our quality control equipments ensures the safe and efficient operation of your equipment and assets by detecting defects before they result in severe damage, and assures compliance with international standards.

Stand 43

Edorom Metal

Founded in 2004, Edorom Metal is a company specialized in stamping, especially progressive stamping. We process a wide range of both ferrous and non-ferrous materials. Our capacities allow us to use raw materials with thicknesses ranging from 0.3 mm to 5 mm and with strip widths of up to 500 mm. Since 2008, Edorom Metal has been certified ISO 9001 and IATF 16949, having extensive experience in the production of metal components for the automotive, electronics and electrical industry or household appliances industries.

Stand 44

Sistec

abas ERP is an ERP system for production developed in Germany, fully localized for the Romanian market, has flexibility regarding customer needs and offers specific consultancy to the target segments.

Stand 45

AECTRA Plastics & PINTAPLAST

AECTRA Plastics, with a history of more than 22 years, is a well renowned and leading distribution company in the petrochemicals industry for the Regional market. The distribution consists in commodity polyolefins and engineering and technical polymers alike, products that are sourced from global production companies like: Sabic, Epsotech, Senoplast, KEP, DIC, Radici, MCP, MOL Group and many other regional and global producers. AECTRA Plastics will be joined by the sister company, PINTAPLAST, specialized in distribution of plastic sheets and films for a wide range of industries and applications. Our materials are made of ABS, ABS blend, PC, PMMA, PP, HIPS, PE, and are suitable for thermoforming, vacuum forming, cutting, bending, drilling, milling. As specialized distribution companies, with a major influence in the local market, AECTRA Plastics and PINTAPLAST became part of Hromatka Group, thus having the recognition of being an important player for the regional market. Hromatka Group is a well renowned specialized distribution company being a service provider in the petrochemicals industry for more than 20 markets in Central and Western Europe.

Stand 46

Helexia

Helexia offers 360° engineering expertise, business analysis and financing possibilities to accelerate its clients' energy transitions while adding value to their business. Helexia's approach is best explained through four categories of services: Plan, Build, Run and Finance with these resting on the two main pillars of energy production and energy optimisation. Helexia bases its offering on a detailed understanding of the customer's needs and provides a partnered approach for maximum efficiency starting at any point in the process.

Stand 47

TechnoMarket

Created to support the development of businesses in the industry, the magazine TechnoMarket - Manufacturing Systems is a real "working tool" for all those involved in the use or purchase of equipment, as well as for finding opportunities for collaboration or financing, offering information about new technologies, case studies with immediate practical applicability, advantageous financial solutions, legislative news and exhibition events.

Stand 48

Stand 50

Siskon Software & Automation

Siskon Software & Automation is an expert engineering company that has been providing professional services on process control, industrial automation and custom software development since 1997.

Stand 51
Stand 52

Smart ID Technology

Smart ID is a technology company that supports clients in the retail, logistics, manufacturing, HoReCa, and utilities industries to acquire, build, develop, create, and grow with the best hardware and software solutions and automation. We develop complex solutions and applications, from omnichannel ERP to WMS, integrating hardware technologies such as fiscal printers, electronic labels, mobile equipment, and automation. All our applications and solutions are integrated into the Smart ID ecosystem, leading to simplification, efficiency, and reduced implementation time for a new solution.

Stand 53

Digital Romania

Digital Romania is a marketplace for IT and Software solutions, focusing on the Romanian market. We help software companies to promote and sell their solutions. We help romanian companies to digitalize their business. Our main activities cover: - consultancy - digital marketing - lead generation - sales - digitalization strategy - audit - implementation support.

Stand 54

Essentra Components

Essentra Component is a manufacturer and distributor of indispensable industrial, plastic and metal components, present in hundreds of markets with thousands of products. With over 65 years of experience, it is a global manufacturing company with local offices in almost every other country. They combine the expertise and flexibility of a manufacturing company with the services and product range of a distributor to make customers' life easier. Chek our website, find our FREE samples and contact our experts for advice.

Stand 55

Anorom

The Anorom factory based in the Hunedoara Industrial Park has a history of over 20 years in the field of surface treatments for aluminum parts: hard anodizing, decorative anodizing, Surtec 650 chroming. We are ready to serve you impeccably and deliver treated aluminum parts of premium quality exactly when you need it.

Stand 56
Stand 57
Stand 58

Lord Industrial Tools

Lord Industrial Tools is a multi-catalog company established in 2007, aiming to bring added value to the Romanian market through high-quality services and products. Our young team, with extensive experience in the INDUSTRIAL sector, provides you with technical and commercial support at the highest quality standards. Thanks to the implemented CRM and ERP systems, the relationship between our company and our clients is always measured by quality and performance standards. Lord Industrial Tools S.R.L. offers a wide range of high-quality products designed for industrial use and beyond, backed by suppliers with extensive experience in the field. Our product range includes industrial furniture, professional work tools, chemical products, cleaning and hand care products, machining services, metal fabrications, industrial flooring, and a broad selection of consumables to support our clients effectively.

Stand 59
Stand 60

Sartorom

Sartorom, the first laboratory equipment company founded after 1989, with fully Romanian capital, celebrates 33 years of activity in Romania. Our services focus on delivering complete solutions for laboratories in all industries, including research and development, production or quality control. We are the first supplier of laboratory instruments in Romania to be ISO 9001 certified and ISO 17025 accredited as a calibration lab.

Stand 61

Renault

We are united around a culture of excellence and innovation, encompassing our employees, our brands, our businesses, and also our partners. Together, we are shaping a safer, more inclusive and more sustainable future. Building on 125 years of proud history, our Group is at the forefront of change to drive new progress in mobility.

Stand 62
Stand 63

Dacia

Dacia is a Romanian car manufacturer founded in 1966, now a subsidiary of the Renault Group. Known for its affordable, reliable, and practical vehicles, Dacia has gained popularity across Europe and beyond. The brand focuses on offering essential features without unnecessary extras, making it an ideal choice for budget-conscious drivers. Models like the Duster, Sandero, and Logan have contributed to Dacia's reputation for value and durability. Combining simplicity with smart engineering, Dacia continues to grow as a trusted automotive brand delivering mobility solutions at competitive prices.

Automotive packaging innovation

We help you transport and protect your product throughout the entire supply cycle.

Automotive standard packaging for global brands and component suppliers

Preventing goods from moving and getting damaged inside the packaging during transportation, storage and handling is as important as protecting them from external damage.

We therefore design, manufacture and supply a wide range of industrial cushioning solutions and protective packaging made of various materials with diverse protective properties.

Standard packaging solutions for the automotive segment

Key benefits

- **Ex-stock solutions:** We always have standard cases available for immediate dispatch
- **Short lead times:** Our bespoke designs take weeks rather than months from development to delivery
- **Low development costs** compared to other types of automotive packaging materials
- **Custom design and print.** Our tailor-made packaging solutions provide optimum protection for automotive parts and reflect your brand.

Pallet packaging solutions

Key benefits

- In addition to our standard dimensions, our pallet boxes can be tailor-made to your exact specification at no additional cost. They're customisable in height, flats, reinforcements, windows and more, and can also be supplied with interior fittings to optimise space and protect your product in transit.
- All our pallet boxes can be printed with your logo, branding and transport symbols to convey a professional image.

Packaging solutions for inside the box

Key benefits

- Dedicated inserts and separators for your products or components
- Buffers - dedicated, intelligently designed corrugated structures used to fill, shape, protect or add padding to packaged products
- Multi-material solutions - Replacing current materials with sustainable corrugated solutions or integrating additional materials into your packaging design to ensure perfect product protection.
